

Patuxent's 75th Anniversary Workshop Series

with the Washington Statistical Society

Surveying Bald Eagles at a Continental Scale

Presented By: Mark Otto

Date: 29 June 2011

Time: 12:30 AM - 1:30PM

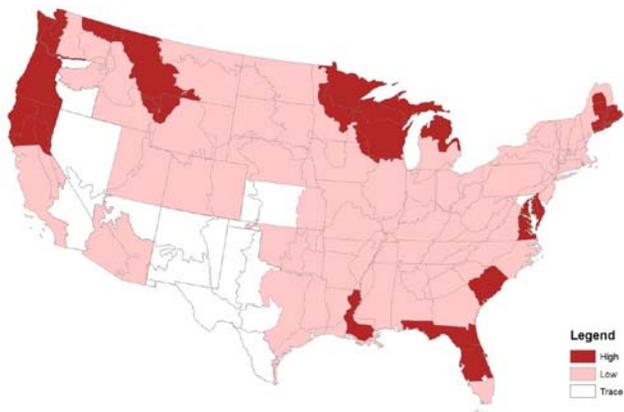

Location:

USGS Patuxent Wildlife Research Center,
12100 Beech Forest Road Laurel, MD 20708
Gabrielson Laboratory Conference Room

Everyone Invited

Dave Menke

The US Fish and Wildlife Service conducted an aerial survey of bald eagles during the spring of 2009, using dual-frame sampling methods to combine existing information about eagle nests locations with aerial survey results. This seminar, sponsored by Patuxent Wildlife Research Center and the Washington Statistical Society, will focus on sampling methods and components of the data analysis and survey results.

Note: Lines may denote State, BCR, or Strata boundaries.
